**RE:** Operations Advisory – Replacement Site Security Vehicle

---

Replacement of one of the Project's security vehicles is scheduled for July 01, 2011.

The current security truck will be replaced with a Toyota Prius. The replacement vehicle is equipped to perform the identical functions of the current vehicle but will offer a more environmentally friendly and green transportation solution.

This change will not affect any of the operations currently performed by Project Security and this advisory is being issued simply for Occupant awareness.
