**RE: Operations Advisory – I-10 ADOT Paving Project**

---

The Arizona Department of Transportation (ADOT) will begin a paving project on I-10 in early August of this year. The work will occur between Houghton Road and State Route 83 Interchange. All paving work will be done during nighttime hours from 7 p.m. to 6 a.m., Sunday through Thursday.

The project is expected to be complete by early November 2010. During the period of construction one lane of traffic will be open in each direction and speed limits will be reduced. Drivers should expect some slowing in traffic speed.

Please visit the ADOT website: <http://www.azdot.gov/> if you are interested in further detail regarding transportation projects.

Thank you.
